

COP N' ROBBERS

- 23" monitor
- 1, 2, 3 or 4 player action (2 good guys, 2 bad guys).
- New reflected playfield image and graphics provide more realistic depth.
- Realistic sound effects, animation.
- Colored cars and beer truck.
- Operator adjustable game time - 4 settings 1 minute up to 3 minutes.

Choppers, the mob, gun molls and bootleg booze are back with new Cops n' Robbers™. The good guys and the bad guys shoot it out at high speeds in the streets.

A lead foot and a quick trigger finger.

Each player steps on his own foot pedal to start the chase and accelerate his car. Realistic pistol grips with 7 continuous up and down positions provide maximum firing range. When an opposing car is hit it crashes to the bottom of the "street" out of sight.

Press the foot pedal again, it reappears ready for another pass at blowing away the other guy.

A beer truck driving up and down the middle of the street between opposing sides provides cover and challenges timing and accuracy.

A deal you can't refuse.

New programming and electronic design gives the players more action, movement, and larger more animated figures. Instructions and scores appear on the monitor for easier viewing and play.

Realistic sound effects are irresistible—gunfire, screeches, roaring engines, exploding cars.

It's big, bright, brawny action, sure to attract players anywhere.

Options to increase your take.
